### **ABSTRACT**

The objective of the research is setting up model law on the establishment of Customs Court as a Specific Court and Customs Litigation Procedure in order to provide justice for international trade operators and to efficiently collect customs duties of the State as well as to create Thai justice process.

The research results are the established Customs Courts as a Specialized Courts which have specialized experienced judge and associate judge. An inquiry system adopted and the procedure will combines civil, criminal, and administrative cases. Court jurisdiction will be in the area where the import trading business is carried out, export of industrial products and areas with have customs clearance.

The research recommends to issue the Model Law on the establishment of Customs Court and a Customs Procedural to Parliament to proceed for enacting law. The government shall prepare a budget for the establishment of a Customs Court and select judicial judges and associate judge as well for adjudicating the customs case.
